LEGACY LOOP

The Family Story Starter

7 GENTLE PROMPTS

Your life deserves a soundtrack, a story, and a legacy.

Seven open questions to help your family make room for the stories, values, and voices you want to carry forward.

There is no need to cover everything at once. One question, a little time, and a willing listener are enough to begin.

01 What place from your childhood can you still see clearly?

02 What did your parents or caregivers teach you that you still carry?

03 What work, craft, or responsibility shaped you?

04 What family tradition do you hope continues?

05 What is a moment you are proud of that our family should know?

06 What song, food, saying, or object brings a memory back?

07 What message would you like the next generation to remember?

HOW TO USE THIS

Choose one question for this week. Ask it in a quiet, comfortable moment, then give the answer room to unfold. You may simply listen, write down a few lines, or-with permission-save a voice note. Partial answers, pauses, and "not today" are all welcome.

When your family is ready, Legacy Reel can bring selected stories, photos, clips, and voice notes together in a cinematic keepsake.

CONSENT & PRIVACY

Only record, save, or share stories and materials with the clear permission of the person speaking and anyone else represented. Let each person choose what feels comfortable to include, who may see it, and whether it remains private. A private family keepsake and permission to share work publicly are always separate choices.
